**An exciting opportunity to lead our Programming at Durham Cathedral**

We are looking for an experienced creative professional to lead and help develop our Programming at Durham Cathedral. We are starting a journey to programme over a longer term and collaboratively across the Cathedral to support our Audience Development Plan and strategic aims.

This new role will help shape how we programme across the Cathedral based around themes for each year, pulling all departments together to deliver a cohesive programme of themed activities which will support the enhancement of our current audiences offer and help attract new audiences to the Cathedral. The role will help define key outcomes for each season and evaluate our performance against those outcomes. The role will also support the Cathedral's Art programme.

You should have experience of the creative sector and working with creative partners as well as programming events. Personally you should be a strong communicator who can work at all levels across a wide range of teams, as well as having excellent organisational skills.
